Professional Summary

Full-stack software engineer with 4 years of experience building scalable web applications using React, Node.js, and Python. Skilled in REST API design, database optimization, and CI/CD pipelines. Passionate about clean code, automation, and mentoring junior developers.

Work Experience

Software Engineer - Nexora Technologies, Lahore

March 2023 - Present

- Developed and maintained 6 microservices in Node.js and Express, serving 200,000+ monthly users.
- Reduced API response time by 38% through query optimization and Redis caching.
- Led migration of a legacy PHP application to a React and Node.js stack.
- Mentored 3 junior developers and conducted weekly code reviews.

Junior Web Developer - BrightLoop Solutions, Islamabad

July 2021 - February 2023

- Built responsive front-end interfaces using React, Redux, and Tailwind CSS.
- Integrated third-party payment gateways and REST APIs.
- Wrote unit and integration tests with Jest, raising code coverage from 45% to 82%.

Software Development Intern - Pixelwave Studio, Lahore

June 2020 - September 2020

- Assisted in developing a client dashboard using Vue.js and Firebase.

- Fixed 40+ UI and functional bugs across two production releases.
